

MY LISTS

- Keep a standard list
- Make your own playlist.

The list that is playing shows blue. You can do things other lists while a list is playing. Select a list you want to do something to (the name of the list is against a black background) and you can add, remove or change the place of songs)

- You can start and stop any playlist from 'my lists'.
- All your playlists are kept until you remove them.

SETTINGS

You can configure the music system via this ICON. You can set up a start list for instance. This is the music that Tunify will start with. You can change the language of the music system and define the playing length of the dynamic lists that Tunify makes for you. You can also view all the songs that you have requested as well as the current status in a handy overview.

You can adjust the volume button from the player.

AGENDA

Thanks to the agenda function, you can set up a planning yourself so that you have music at every hour of the day.

ADDING - SORTING

Click on to add a playlist to one of 'my lists'.

You can sort according to artist, title, age, ambiance, tempo (bpm), dance style, length. Click on to change the parameters.

MUSICOTHEQUE

MUSIC CHANNELS

The musicothèque is split up into three categories each of which is in alphabetical order.

Select a music channel and you will get a selection of music that lasts several hours. You can fine-tune this music selection even further by setting parameters such as style of music, feel, mood, reputation, danceability, etc.

Each channel offers hours of music selections that meet your criteria.

RENEW

Click on *Renew* to automatically create a new music selection.

PERSONAL PAGE + HELP

From here you can return to your personal page, search in 'help pages' or find information about Aristo Music.

Click on and the music will start up shortly. You can choose a complete list or just a certain song.

Remove songs from music selections.
